cancer and specified disease

Receiving a diagnosis of cancer or a specified disease can be difficult on anyone, both emotionally and financially. Having the right coverage to help when undergoing treatments for cancer or a specified disease is important. Our coverage can help provide added financial support when it is needed most.

Our coverage helps offer peace of mind when a diagnosis of cancer or a specified disease occurs. Below is an example of how benefits might be paid.*

Jane chooses benefit coverage under her **Employer Approved Plan**

Jane undergoes her annual wellness test and is diagnosed with cancer.

Jane's doctor recommends pre-op testing and provides her with the location of the hospital. Jane must travel 200 miles to have pre-op testing (medical imaging) and is admitted to the hospital for surgery.

Jane undergoes surgery, anesthesia, radiation/chemo, and is visited by a doctor during a 3-day hospital stay. And every 2 weeks she has radiation/chemotherapy at a local facility, is given anti-nausea medication, and sees her doctor during her follow-up visits.

Our cancer insurance policy paid Jane the following:

Wellness Exam	\$ 100
Hospital Confinement	\$ 600
Cancer Initial Diagnosis	\$ 5,000
Non-Local Transportation	\$ 160
Surgery	\$ 1,500
Anesthesia	\$ 375
Radiation/Chemo	\$ 5,000
Medical Imaging	\$ 250
Inpatient Medicine	\$ 75
Physician Visits	\$ 150
